“ Matt has been in my life since the day I was born. He was my father's best friend in high and became my god father. He gave me my first John Deere tractor when I was a kid and he gave my oldest daughter his first John Deere tractor after she was born. He will be deeply missed by me and my family. There are no words to describe how much the man meant to me.

“ I have known Matt since we were kids and we would play together when he would visit his grandparents on Cherry St. in Blissfield. They were our neighbors and Matt was a very kind person and was always willing to help others. You will be missed but you are with your mom and your diabetes is gone now. Rest in Peace Matt.

“ How can we only share one memory about Matthew? Because if you really knew him you made many memories, we have been friends for almost 25 years meeting when we worked at Meijer together. Goodness we were just kids back then starting out our lives growing into adulthood even though Matt was only about 5 years older than the group of us he always had the wise words of wisdom. But little did he know us kids looked out for him and his health and always tried to make sure he was eating right and checking his sugar and doing what he was supposed to. We all became a family soon there after to doing dinners at the house to hanging out on the weekends to late night putting the largest entertainment center together in his apartment because of course he had to get the most complicated one in the store. He was the car guy that could make changing a headlight bulb into taking off the panel off the side of the car and removing the battery and finding something wrong with your engine, but yet he was the first one you called when you had a problem. I'm going to skip ahead because I could type forever sharing things but I'm going to fast forward to 6 years ago when I had nowhere to go and with one phone call to Matt I had a roof over my head and a warm bed to sleep in. I moved into the house for a while to get back on my feet and re-start my life if it was not for the Wednesday night free popcorn at the movie theater and the late summer fairs to keep me busy and my kind of thing I probably would have been lost without him. And him being a uncle to all my kids and him being there for birthday party graduation parties and always checking on them whenever we talked meant the world to me. I'm going to cherish all the memories we had together. I'm glad I got a chance to spend time with him a few weeks ago he stopped out to the house and helped us out and then we just sat and talked for hours after. Matthew will be missed by many but more so from my family we lost a brother a uncle and a friend. Fly high my friend and send my love to momma Char ❤️

Matt I knew you since elementary and we have always been friends .We shared so many memories. Like hide and seek at your house, driving around in Alice, hanging out at your house, you and Chuck landscaping my house and so much more. You always had such a big heart. I know you fought so hard with your diabetes. Well no more fighting you are healed and God granted you as a special angel. I will always love you my friend

Matt was one of my students in Orchestra at Drager Middle School, as was his sister Bobby Jo. He was always there and very respectful, a good student, quiet and liked by all in the class. Gone too soon but suffering no more.

“ If we shared all the memories, it would be a novel. He grew up in the neighborhood and enjoyed many activities with neighborhood kids. As an adult he never failed to chat with you whenever he saw us , nor never failed to wave as he drove by our place. Matt dealt with his diabetes all his life. Matt, you will be missed. Rest Heaven.
